

## **Main Screens:**

1. Login Screen - Allows users to log in to the app using their email and password. If the user doesn't have an account, they can click on the "Sign Up" button to create a new account.
2. Sign Up Screen - Allows users to create a new account by entering their first name, last name, email, password, and role. Once they create their account, they will be redirected to the Dashboard screen.
3. Dashboard Screen - Displays an overview of all the projects assigned to the user. The dashboard will include a list of projects, each project will have the project title, status, and due date. Users can click on any project to view its details.
4. Project Screen - Displays the details of a selected project, including its title, description, status, and start/end dates. Users can view the tasks associated with the project and can create new tasks. The project screen also allows users to edit the project details.
5. Task Screen - Displays the details of a selected task, including its title, description, due date, priority, and status. Users can edit the task details, mark the task as complete, and add comments.
6. User Profile Screen - Allows users to view and edit their profile details, including their name, email, and password.

## **Sub-Screens:**

1. Add New Project Screen - Allows users to create a new project by entering its title, description, start/end dates, and assigning users to the project.
2. Edit Project Screen - Allows users to edit the details of a selected project, including its title, description, status, and start/end dates.
3. Project Task List Screen - Displays a list of all the tasks associated with a selected project. Users can click on any task to view its details.
4. Add New Task Screen - Allows users to create a new task by entering its title, description, due date, priority, and status. Users can also assign the task to a user.
5. Edit Task Screen - Allows users to edit the details of a selected task, including its title, description, due date, priority, and status.
6. Comments Screen - Displays a list of comments associated with a selected task. Users can add new comments or delete existing ones.
7. User List Screen - Displays a list of all the users in the system. Users can click on any user to view their profile details and edit them.
8. Add New User Screen - Allows administrators to add new users to the system by entering their name, email, password, and role.
9. Edit User Screen - Allows administrators to edit the details of a selected user, including their name, email, password, and role.

10. Project Status Screen - Displays a list of all project statuses and allows administrators to add new statuses or edit existing ones.
11. Task Priority Screen - Displays a list of all task priorities and allows administrators to add new priorities or edit existing ones.
12. Task Status Screen - Displays a list of all task statuses and allows administrators to add new statuses or edit existing ones.

This document summarizes the various screens and sub-screens required for the app, each with their own specific functionality and purpose.
